— THE INSTITUTE FOR — GLOBAL LEADERSHIP

The Institute for Global Leadership

From **Virginia Swain**

As I thought about my sharing during the New Story group, I realized anew that my purpose as a trained facilitator for the Earth Charter was to help people bring it to life and to connect with one another. I would like to share the following links to my work.

[Celebration: An Intergenerational Model for Building Local and Global Community](#)

A model for building local and global community draws on the efforts of Virginia Swain, as she persevered in her dedication to address the problematic process behind the UN Security Council Resolution sanctioning the Persian Gulf War by harnessing the power of children and child-like attributes in adults—innocence, generosity, sense of awe and wonder, curiosity, creativity and cooperation — to build global community in the United Nations with the Celebration of the Children of the World: A Model for Building Global Community (Master's Thesis, Lesley University, 1993). The songs below were written and sung by Tom Hansen, Ph.D., for the Celebration. The thesis is based on unity experiences at the earth summit in 1992. Here are a couple of my videos:

The Cosmic Signal: Celebrating the Moment We First Heard the Echo of the Big Bang

Two radio astronomers, Penzias and Wilson, accidentally stumbled on the Cosmic Microwave Background Radiation (CMBR) in 1964, proving that the universe began in an exploding fireball. On April 20, 2024, the Town of Holmdell and the Deeptime Network celebrated the 60th anniversary of this landmark discovery. This video was produced by the Deeptime Network.
